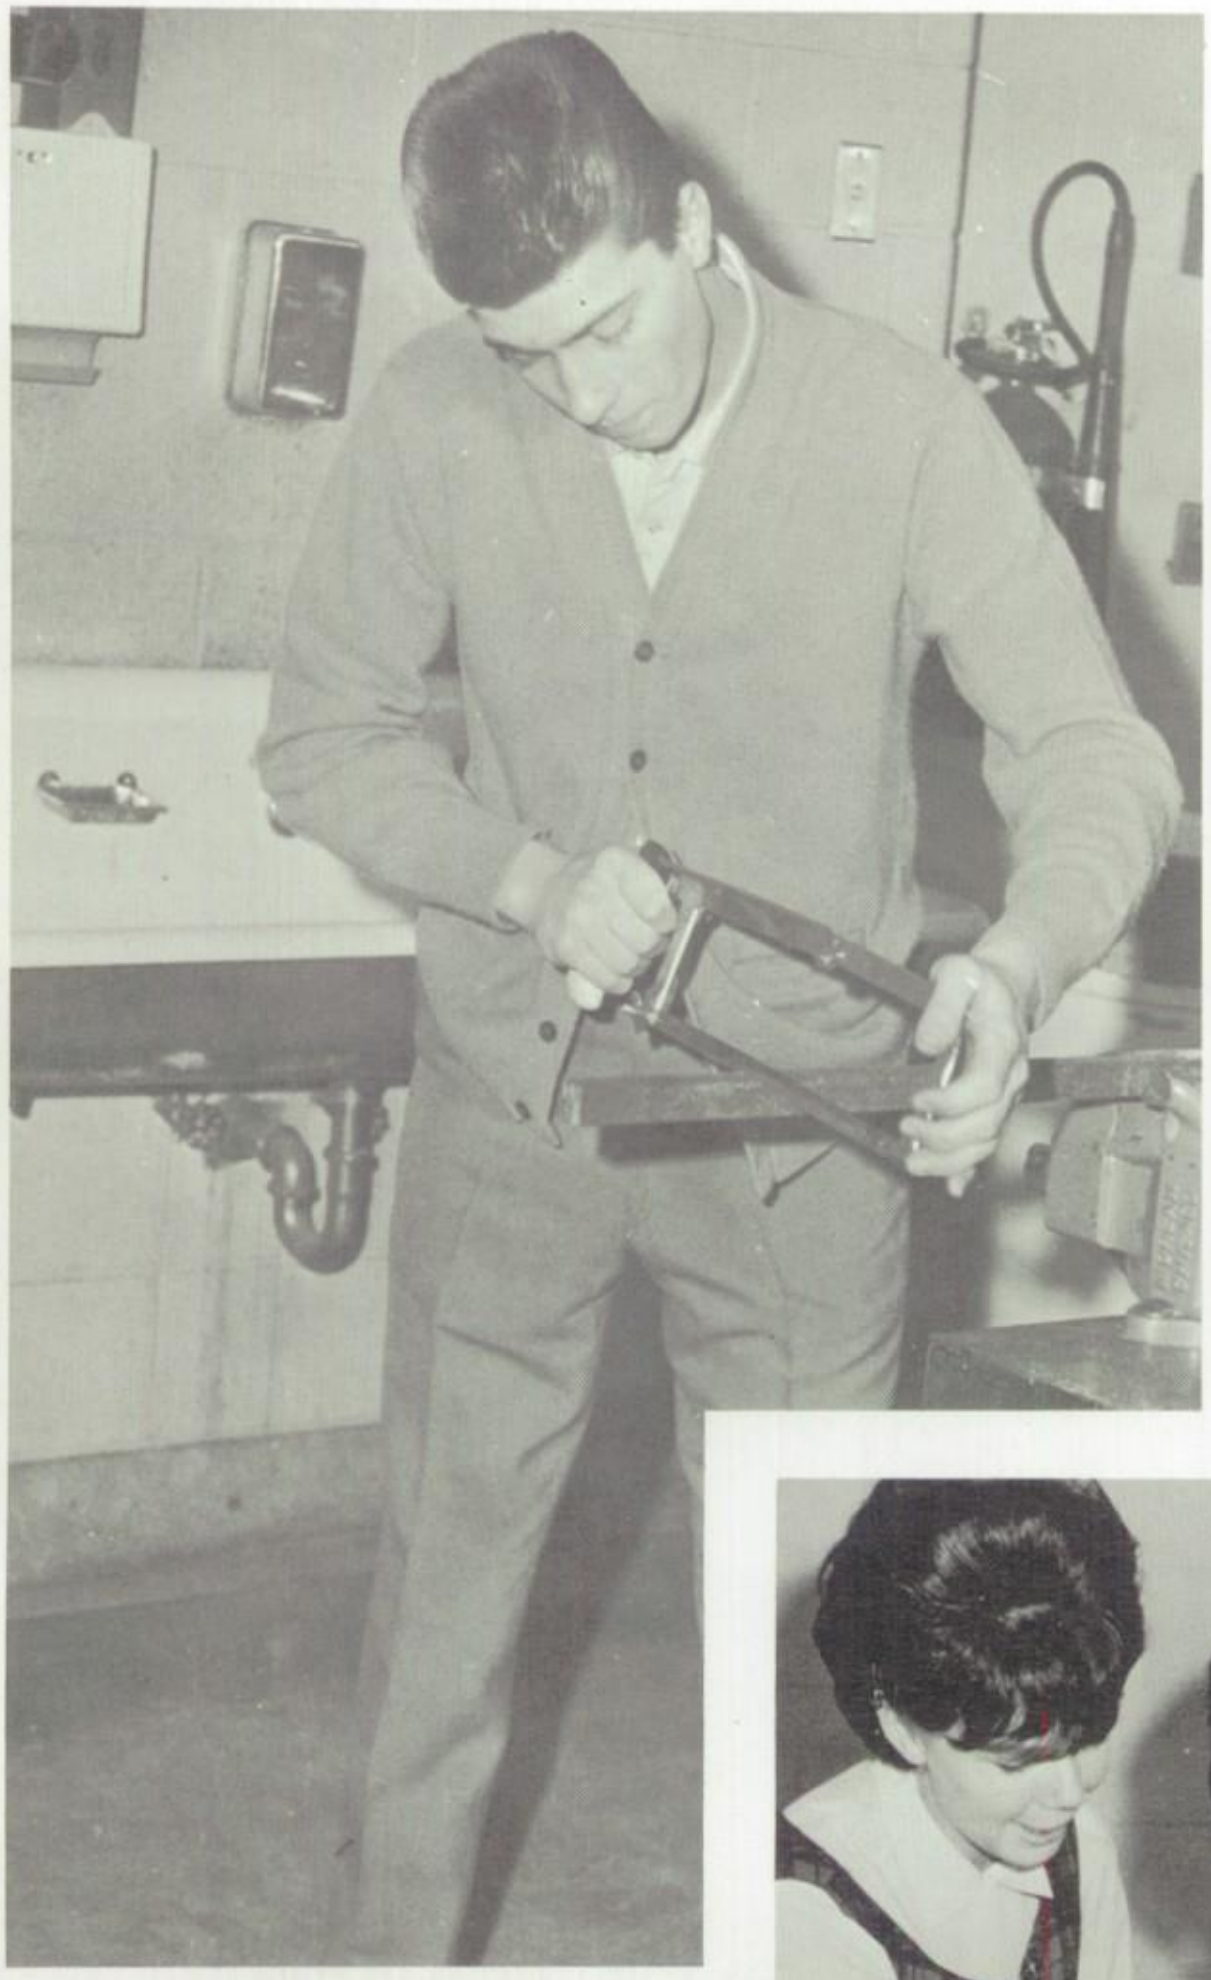
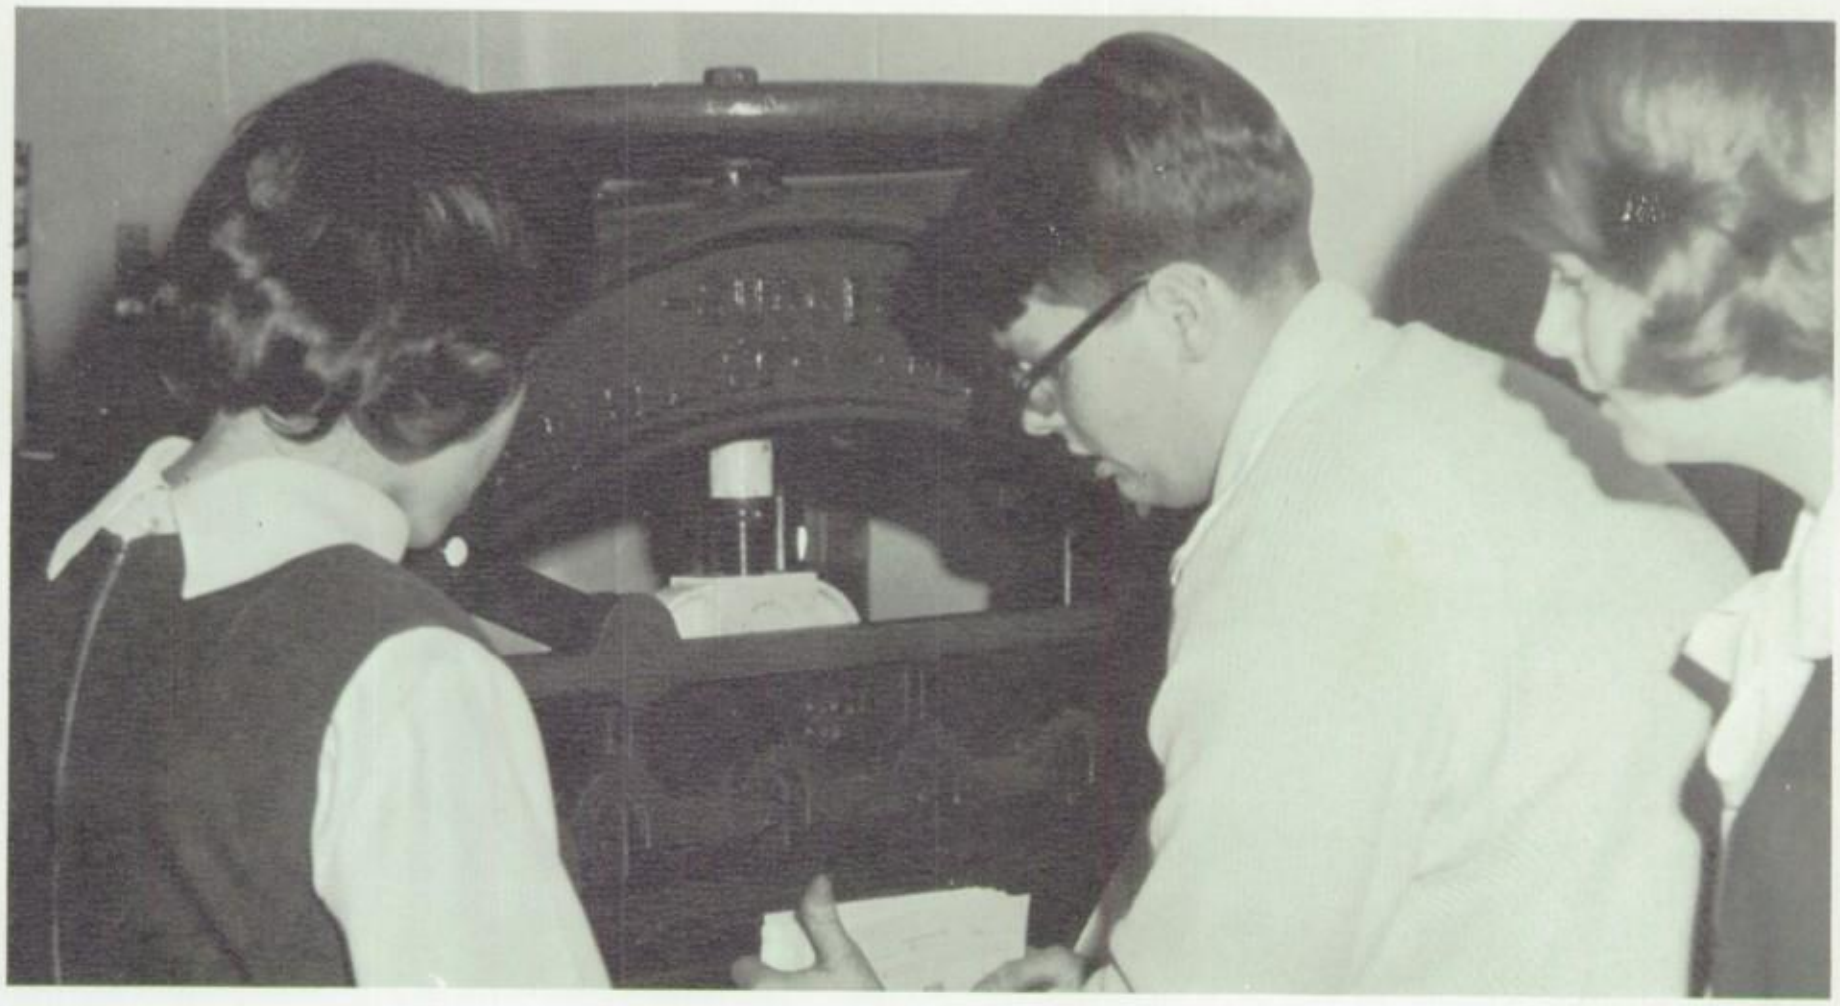
The Shore Regional Class of 1965 dedicates this yearbook to Mr. Larry Allen, who has been our friend and advisor for two years. When Mr. Allen became our advisor, he willingly accepted the responsibility of guiding our class until graduation.

Though we can never fully express our appreciation for the work you have devoted to us, Mr. Allen, we offer you our sincere gratitude and thanks.





EDUCATION-DOORWAY TO THE FUTURE

When the school door swings open to admit the new student for the first time, it is but the forerunner of other doors that will open to his touch as he progresses through the several grades of formal education. These doors are but milestones measuring his progress in preparing himself to fill his rightful role in the society of tomorrow. As each door opens, new treasures of knowledge will unfold before him, rewarding him for his diligence and whetting his appetite for additional knowledge. Truly, education is the doorway to the future.

Bettina Guettges, our foreign exchange student.

Walk together, talk together all the people of the world. Then, and only then will we have peace. This word, the motto of the A.F.S. exchange program, represents the reason why I came to the U.S., to your school to spend one year with you. During the wonderful time I spent with you, I learned that people are the same all over the world; their language and their customs may be different, but their hearts and their desire for peace are the same. Now, when I will go back to my country, I hope to share this great experience.

I want to thank all of you so much for the help and effort you gave to make this year possible for me.

Bettina Güttges

ELBERT M. HOPPENSTEDT,
SUPERINTENDENT
Montclair State B.A., Teachers College, Columbia University
M.A., Rutgers University.

Education, to be successful, must not only inform but inspire.

The measure of our success as educators, and YOUR success as a student here at Shore Regional High School, will begin with that first day after graduation. For many of you this will be the beginning of a new mode of life -- a GIVING to society instead of a receiving. Set your goals high, and remember that no power in the world can keep a first class person down or a fourth class person up. In the end, it is the inspiration you have received during your formative years which marks the level to which you will achieve.

To each of you graduates, I extend my hopes for success, prosperity and happiness -- but above everything, for a good measure of inspiration which in itself brings all else.

JOHN J. KOLIBAS, PRINCIPAL
Temple University B.S., M.Ed.

In future years when you page through this book, you can relive three stimulating and rewarding years at Shore Regional High School. I hope you will treasure this book as a precious memento of your school days.

This book symbolizes the spirit of Shore Regional High School which you have helped to create. You have created this spirit by expending many happy hours in studying, participating in dramatic productions, marching with the band, cheering for or playing on our athletic teams, and engaging in the varied activities conducted by our high school.

If the past years have been pleasant, I hope the future years will be happier. May you find within the pages of this book the inspiration to carry on your future lives in the true spirit of Shore Regional High School.

# HISTORY

JAMES NEWMAN, CHAIRMAN
Rider College -- B.S., Rutgers University -- M.Ed., Montclair State College -- M.A.

The emphasis of the Social Studies Department is to help the students understand the American society of yesterday and today. Techniques such as films, filmstrips, and guest speakers aid the teachers in this endeavor. Broad gauge discussions in all classes also make use of these various academic disciplines.

"Ladies and gentlemen, you have just witnessed a paid political announcement."

# MATHEMATICS

MERVIN L. EDWARDS, CHAIRMAN
Montclair State College -- B.A.; Trenton State -- M.A.

The mathematics department is divided into two levels of study. General mathematics is concerned primarily with the practicability of mathematics such as its use in the home. Those who are interested in such professions as science, teaching or engineering would enroll in college preparatory math which consists of algebra, geometry, trigonometry and an honors course in calculus.

# SCIENCE

JAMES G. MEANEY, CHAIRMAN
St. Peter's College, B.S., Steven's Institute of Technology.

The Science Department hopes that through its curriculum, consisting of Earth and Space Science, General Science, Biology, Chemistry, and Physics, it will create a surge of interest in the field of science itself. In addition it attempts to lay the foundation for an inquisitive mind which stimulates a desire to learn.

# LANGUAGE

The aims of the Language Department are to introduce the student to different cultures as well as to prepare him towards higher education. This is accomplished through the introduction of the language, culture, and customs. This program will help students understand to a greater degree our complicated world society.

# BUSINESS

JOHN E. FITZPATRICK, CHAIRMAN
Paterson State College -- B.S., Montclair State College -- M.A.

It is the purpose of the Business Department to train students to become proficient, efficient and competent in their chosen field of endeavor. It also places a strong emphasis on meeting the desirable qualifications necessary for acquiring a position following high school graduation. It is believed that those students taking this course will become worthwhile citizens of tomorrow.

# ART

JOHN W. BEEKMAN, CHAIRMAN
Ottawa University, Newark State College,
Kansas State Teachers College of Emporia
Kansas -- B.A.

The development of individual creativity has been the goal of the Art Department since its inception. The graduates this year have borne out our faith in program. The future years will find the stress on originality and self-expression to provide inner satisfaction and a better understanding of our artistic environment.

This is the third fire sale in two weeks!

"You mean all I have to do is connect the dots?"

# MUSIC

Learning to sing, to play, to listen to, and to understand music are all part of a culture which remains with us for our entire lives. The Music Department strives to develop that latent talent which many students possess, and to instill in every student a more diversified appreciation of music.

HENRY MELNIK, CHAIRMAN
Newark State College, New York University -- B.S., M.A., and Ed.D.

"Thank goodness we're only in the reserves!"

"Come on, whose got the white spray paint?"

# HOME ECONOMICS

The aim of Home Economics is to promote the appreciation and understanding of the importance of creating a home and community environment conducive to the healthy growth and development of the family. Stressed is the importance of establishing realistic personal goals and values, the development of skill and the aquisition of knowledge necessary for successful family and community living.

# PHYSICAL EDUCATION

Physical Education affords the opportunity for students to develop physically, mentally, emotionally and socially through movement education. It is the intention of this department to encourage an intelligent understanding of body parts and their efficient use. Physical education offers opportunities for satisfying an expression of emotional response and provides suitable outlets for creative, cooperative, competitive aesthetic patterns.

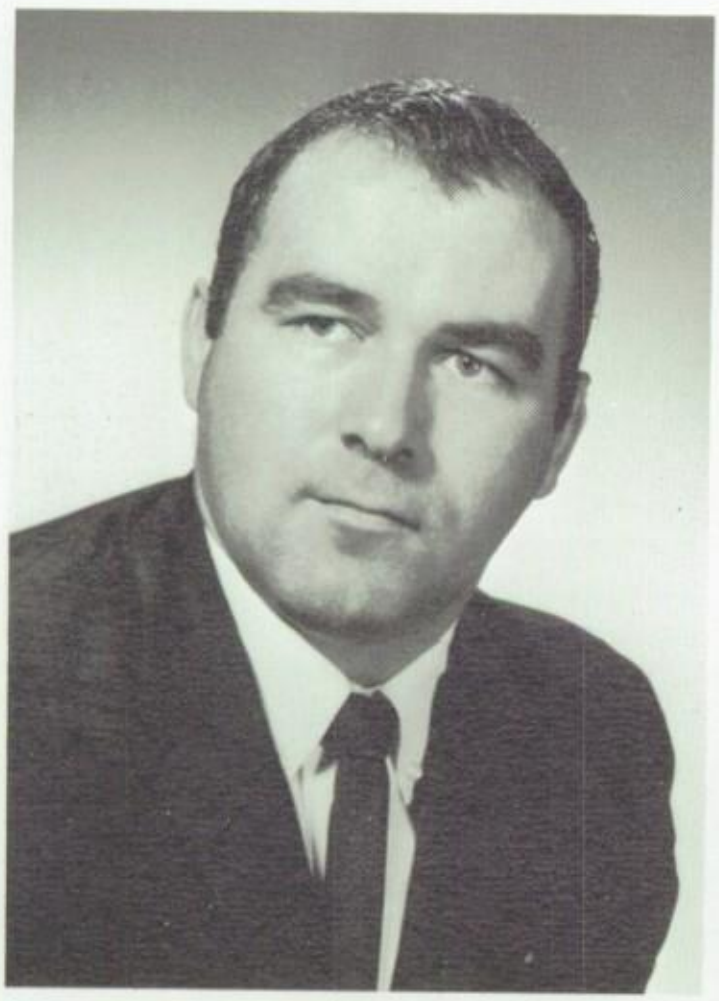
# INDUSTRIAL ARTS

The Industrial Arts Department is rapidly expanding. New courses have been added to enhance the program and to add more variety in course selection. The areas of study give a cross-section of the technical and industrial society in which we live and introduce the students to the proccesses, products, materials, and methods used in the world of work.

JAMES HOFFMAN, CHAIRMAN
Penn State -- B.S.



ROBERT FLANAGAN

# GUIDANCE

JOSEPH A. MISKLOW, CHAIRMAN
Woodstock College -- B.A., M.A.,
Seton Hall University -- M.A.

The purpose of the guidance program is to help students adjust to present circumstances and plan realistically for their future. This purpose is achieved in many ways, among which are orientation of eighth graders to high school, a testing program, counseling sessions on personal or social problems, and conferences with students and parents.

This was a year of great expectations for Shore's football team. It was the first year that we played in a conference.

In the overall picture we did not do as well as we had hoped for, but considering the injuries that handicapped the progress of the team the boys played at their best.

We had several boys who, during the season, displayed great leadership and sportsmanship. We hope to improve on our 4-4-1 record next year.

Soccer is a very demanding game. A good soccer player needs all the qualities of a true athlete, and more. He needs the speed of a sprinter, the stamina of a miler, the tactical mind of a quarterback, the agressiveness of a fighter, the coordination and balance of a gymnast.

At Shore, we are proud and full of admiration for those boys who have the "intestinal fortitude" to suppress the frustrations encountered when learning a game as technical as soccer, and we look forward to introduce this great game to many more.

# BASKETBALL

The poise and determination of three hard years of work, are the determining factors in the success of the 1964-1965 Shore Regional basketball team. This team has compiled great team play and desire with a tremendous defense to run up an impressive number of victories.

The team defense was so good that it limited ten of our opponents to less than 50 points a game. The overall defensive average for the season was 51 points per game, one of the three best in the Shore area.

Many years will pass but the names of Pete Berger, Ron Reisner, Fred Kampf, Merv Eastwick, and John Kurzejewski, the graduating Seniors, and Guy Knieriem, Jay Franks, and Curtis Ransom, the underclassmen, will bring back fond memories of the fine 1964-1965 basketball season.

# WRESTLING

Shore's wrestling team had a 5-6 record for this year. All our losses were to competition with larger schools. We are looking forward to a better season next year with seven of our varsity men returning.

Four seniors are graduating and we will miss them all, they did a fine job for us all year.

I am hoping to get more support next year by getting more boys out for the team. Wrestling is the sport for the smaller boys as well as the big boys.

# BOWLING

This year's team has proved itself by establishing a winning record for the season and taking a fifth place birth in the Southern Division.

With five of the six bowlers leaving this June, the coming season shapes up to be a rough one. This is all the more reason hard work and practice are needed to develop a successful season to encourage a greater turnout for this growing sport.

It is a tremendous feeling to belong to a team. It is also very important to be active in sports and to keep physically fit.

What then, you might say, happens to those students who cannot and do not belong to a team of any kind?

This is where Intramurals enters into the picture. Intramurals gives those students who do not participate in our interscholastic program a chance to be active in sports and to keep physically fit.

# CHEERLEADERS

"T-E-A-M GO! FIGHT! WIN!

These words were repeated many times by the 1964-65 Varsity cheerleading squad in encouraging the soccer, football and basketball teams on to victory. The cheerleaders have made great strides this year toward improving their cheers and style. They plan to sponsor a Varsity Cottilion, a Cheerleading Clinic for all the schools in Monmouth County and of course try-outs for next year. Here's to better cheering, school spirit and VICTORY.

Miss Vivian Moen --
Adviser
